Security & Control Panel
2GIG-GC3-345

## Exceptional Security & Control, now with Smart Areas™

The 2GIG GC3 is the easiest, most intuitive home control system in the industry. And now with Smart Areas™, it's even better. Smart Areas enables four security partitions in the 2GIG system, for added personalization, flexibility and performance. With its intuitive 7" touchscreen, integrated Z-Wave Plus radio and future-ready capabilities, the GC3 delivers unbeatable functionality, ease of use and fast installation.

Key Selling points:

- Our most advanced security panel yet.
- New! Smart Areas™ enables easy set-up of four security partitions for maximum peace of mind – the first in the market.
- The first self-contained partitioning panel in the marketplace.
- Big, 7" screen with smarter, more intuitive user interface.
- 2GIG's proven reliability and performance that is trusted by millions.

Key Features:

- Easy to install with integrated level, third-hand strap.
- Intuitive new user interface.
- Compatible with GC3 Secondary Touchscreens, Notification and Intrusion Sensors and much more.
- Integrated Z-Wave Plus radio supports Z-Wave devices for locks, lighting, thermostats and more.
- New Create Rooms and Bookmark Screen features tailored to each user's needs.
